

MULTIFUNCTIONAL CENTRE SCHNELL BAR WISER 22

Bidirectional automatic stirrup bender for processing rebar, with the capability of performing downward bends using the lower bending unit. Powered by digital electric servomotors.

Technical Specifications

- **Capacity:** 1 bar : Ø 8-22 mm
2 bars : Ø 8-16 mm
- **Dimensions:** 9550 x 1760 x 3070 (h) mm.
- **Weight:** 5700 Kgs. approx.
- **Average consumption:**
Electric power: 5 Kw/h (400V-50Hz; 480V-60Hz) (depending on bar diameter)
Compressed Air: Machine working pressure 7 bar
- **Serial equipment:** Central mandrels Ø 40, 50, 70, 100, 150, 200 mm
